

# MODELLING

## Product Development

OCR Technology GCSE  
Textiles  
Assessment Objective 4

\* When I was practising the stencilling of my hearts and stars, the shapes I used were bigger than those shown on my original "Final Design". I felt that the sizes I used for my "Testing & Trialling" were better than the originals. The preferred size is easy to quilt because it is quite large, and will be less fiddly.

Modelling/testing	✓
Product specification	

The different colour lines in the pictures above represent the different fabrics that I will use. The quilt will completely cover the whole duvet (as shown above right). The two fairies, shown close-up (above left) both fit on top of the bed. Only a small part of the wing will overhang.
